

**Report
about Christmas
visits to orphanages**

December 2017

On December 16, we visited a boarding school for mentally disordered children in Zelyoniy village of Tver region. We conducted many interesting master classes.

Andrei and Olya drew, Natalia made crafts from yarn,

another Natalia conducted a culinary master class on making cakes, the Litvinov's family taught to make paper figurines.

There were also sport activities and a master class for decorating cookies, from which they made the whole house!

After a general tea party, the evening ended with a short Christmas program, where we preached the Gospel and of course gave children gifts. The children, as always, welcomed us joyfully and openly and were all very pleased with the kind fellowship.

On December 21, with a Christmas program we visited a boarding school in the Novopetrovsky village of Moscow region. The boarding school has about 120 children, but many were sick and we had fellowship with 90 children. Our volunteers conducted sports events on the open sports ground.

Then there was the Christmas program. Each child we fed with delicious pizza, and also all children received sweet gifts.

Just before Christmas we celebrated the wedding of Andrei Rovoizinsky, who minister in our Rehabilitation Center. This is a very difficult and sacrificial ministry and the Lord blessed him with Julia. We pray for the blessing for the young family!

We sincerely thank all our sponsors and volunteers!

All the abundant blessings in 2018!

Pastor Andrei Blinkov
